INTERNSHIPS

Marpu Foundation | October 2024 - October 2024

- CultureCraft is a project dedicated to shaping and enhancing the organizational culture through intentional efforts to foster a positive, inclusive, and engaging workplace. The aim of CultureCraft is to build a strong, values-driven environment that encourages collaboration, diversity, and employee satisfaction. Through initiatives such as team-building activities, employee recognition programs, and open communication channels, CultureCraft seeks to create a place where employees feel valued, connected, and motivated to thrive. By crafting a supportive and transparent culture, the project aims to drive higher engagement, improved productivity, and long-term success for the organization.

Marpu Foundation | September 2024 - September 2024

- Welcome to WanderWords, a blog where stories travel as far as the imagination can take them. Here, we explore the beauty of the world through vibrant tales, meaningful reflections, and insights that spark wanderlust and curiosity. From travel adventures and cultural musings to creative inspirations and personal growth, WanderWords is your guide to discovering the extraordinary in everyday life. Join me as we journey through words, uncover hidden gems, and embrace the magic of exploration—one story at a time.

Let's Gametech | July 2024 - July 2024

- Welcome to lulu cafe your cozy spot for great coffee, delicious bites, and warm conversations. Whether you're looking to kickstart your day with a perfectly brewed cup of coffee, relax with friends over decadent pastries, or find a quiet corner to work, we've got you covered. Our menu features freshly brewed beverages, hearty snacks, and indulgent desserts made with the finest ingredients. At lulu cafe, we believe in creating moments of happiness—one cup and one plate at a time. Stop by today to unwind, savor, and enjoy the simple pleasures of life.

Technohack | February 2024 - March 2024

- Welcome to my portfolio, a curated collection showcasing my work, skills, and creative journey. As a passionate "web developer", I take pride in crafting innovative solutions and impactful projects that tell a story. Explore my featured work, dive into my achievements, and discover how my expertise can bring value to your ideas. From conceptualizing designs to executing solutions, every piece here represents my dedication to excellence and creativity. Let's collaborate and create something extraordinary!

PROJECTS

portfolio on react | December 2024 - January 2025

- Welcome to my React.js-powered portfolio, where dynamic and interactive design meets the power of modern web development. Using React.js, I have created a seamless, fast-loading experience that showcases my skills and projects in a visually appealing way. The portfolio features a smooth, component-based architecture that updates in real time, allowing me to showcase everything from web applications and UI designs to full-stack projects.

This portfolio includes:

About Me: A personalized introduction to who I am and what drives me as a developer.

Projects: A variety of projects featuring detailed descriptions, skills used, and live

Skills: A comprehensive list of tools and technologies, showcasing my expertise in React.js, JavaScript, HTML, CSS, and other frameworks.

Contact: A direct way for potential employers or collaborators to get in touch through an integrated form.

Smart Traffic Management System | December 2024 - December 2024

- The Smart Traffic Management System using IoT aims to enhance urban mobility by integrating real-time data collection and analysis for efficient traffic flow. By deploying IoT sensors and smart devices across roads and intersections, the system monitors traffic density, vehicle speeds, and congestion levels. It dynamically adjusts traffic light timings based on real-time traffic conditions, helping reduce delays and improve vehicle movement. In addition, the system offers emergency vehicle prioritization, enabling faster passage through intersections during critical moments. With detailed analytics, traffic patterns can be analyzed to improve urban planning and predict future traffic trends, all while enhancing safety by detecting accidents and notifying authorities promptly. This smart solution ultimately helps minimize congestion, optimize travel times, and contribute to a more sustainable and efficient urban transport ecosystem.

Language Converter | February 2024 - February 2024

- A Language Converter using Google Translator Modules is a tool that leverages the Google Translate API to translate text from one language to another in real-time. Users can input text in a source language, and the system detects the language, providing an instant translation to the desired target language. This tool supports multiple languages and can be integrated into web and mobile apps, offering a seamless and accurate translation experience, ideal for breaking language barriers in various applications like customer support or global communications.

ACHIEVEMENTS

- Top 10 in class, Department topper in B.Tech/B.E.
- Top 3 in class, All rounder in school
